📁 PROJECTS

Text to Voice Converter 🔗

Link :

<https://kjr577.github.io/Text-to-voice/>

- The project is a Text-to-Speech (TTS) web application that converts typed text into spoken audio directly in the browser.

Grade Calc 🔗

<https://gradecalc-swart.vercel.app/>

- It allows students to select grades for each subject and automatically calculates their GPA and percentage instantly.
